Medical Officer of Health

J. Coutts Milne, M.B., Ch.B., D.P.H., D.T.M. & H.

Chief Public Health Inspector

D. J. Davies, Cert.R.San.I., and S.I.E.J.B., M.A.P.H.I.

Deputy Chief Public Health Inspector

W. G. West, Cert.R.San.I., and S.I.E.J.B., M.A.P.H.I.

Additional Public Health Inspectors

D. A. C. Davis, P.H.I.E.B., M.A.P.H.I.

W. K. Fripp, Cert,R.San.I., and S.I.E.J.B.

Chief Clerk

C. H. Tuck

Clerk/Shorthand Typist

Mrs. M. R. Montgomery

Junior Clerk

Miss G. Hall

To the Chairman and Members of the Hartley Wintney Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present for your information and consideration the Annual Report for the year, 1966, prepared according to the directions of the Minister of Health.

Points of note in the vital statistical figures are an increase in the estimated mid-year population, a considerable increase in the birth rate, a decreased death rate but an increase in the infant and still-birth rates although these last two rates are less than the national rates.

The birth rate of 26.4 per thousand of the population is considerably higher than the rate for the previous year by about 35 per cent and about 50 per cent higher than the national rate of 17.7. The district birth rate has shown an interesting variation over the past ten years as can be seen in the following table :-

<u>Year</u>	<u>Number of Births</u>	<u>Standardised Birth Rate</u>	<u>National Birth Rate</u>
1957	396	18.02	16.1
1958	395	17.43	16.4
1959	400	17.21	16.5
1960	415	16.79	17.1
1961	425	18.23	17.4
1962	535	17.07	18.0
1963	608	23.26	18.2
1964	640	21.47	18.4
1965	694	19.06	18.1
1966	797	26.04	17.7

Of special interest in the first half of 1966 was the occurrence of cases of a mild form of smallpox (Variola Minor) in the Midlands and Monmouthshire. This resulted in a greatly increased demand for international vaccination certificates to meet the requirements of a number of European countries. In view of the difficulty in distinguishing between this form of smallpox and chickenpox particularly in adults the Chief Medical Officer of the Ministry of Health advised general practitioners to bring to the notice of District Medical Officers of Health any case of chickenpox presenting unusual features. In this district two cases which proved to be chickenpox were brought to my notice but virological investigation by the Central Public Health Laboratory, Colindale, excluded the possibility of smallpox.

As in previous years the routine work of protecting young children against the preventible diseases of smallpox, diphtheria, whooping cough, tetanus and poliomyelitis continued to be carried out and thanks are due to the private medical practitioners for their help in this connection.

I am grateful to the Chairman and members of the Public Health Committee for their encouragement and help, to Mr. Hill, Clerk of the Council, to Mr. Davies, Chief Public Health Inspector and the staff of the Health Department for their ready assistance enabling me to carry out my duties.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

J. COUTTS MILNE

	135	183	318	293	276

Causes of Deaths

The commonest causes of death are shown in the table below together with the corresponding figures for the five year period 1961 - 1965 :-

	1966		1961-1965	
	<u>Number</u>	<u>Percentage of Total</u>	<u>Number</u>	<u>Percentage of Total</u>
Total deaths.....	318	100	1,480	100
Diseases of heart and circulatory system...	103	32	596	40
Cancer.....	61	19.2	238	16
Vascular lesions of nervous system.....	36	11.3	201	13.6
Respiratory disease other than tuberculosis.....	40	12.5	153	10.3

The trend of mortality has generally remained the same over the past five years but in 1966 deaths from diseases of the circulatory system showed a decrease and deaths from cancer and respiratory disease showed an increase as compared with the average annual number over the five year period of 1961 - 1965. A sudden outbreak of influenzal pneumonia amongst patients in Wimble Hill Hospital was responsible for the increase in deaths from respiratory disease as well as causing 27 female deaths out of 29 deaths from influenza. At the age of 75 and over there were 108 female deaths compared with 47 male deaths showing that women live longer than men. Of the 107 male deaths at age 55 and over 25 were due to cancer 12 being from lung cancer. The fact that it takes such a long period of time before lung cancer becomes manifest makes it difficult to persuade young people that cigarette smoking is to be avoided. Twelve deaths from lung cancer may not sound very much but the number of male deaths from this disease in the country in 1966 totalled the formidable figure of 22,606 about five times as many as deaths among females and three times the total of road accident deaths. The Government has been considering the problem of smoking and health and early this year urged that smoking should be restricted in such public places as cinemas, theatres, restaurants, shops and offices.

NOTIFIABLE AND INFECTIOUS DISEASES

General

With the exception of measles the incidence of notifiable infectious diseases was low. Only one case of food poisoning was notified due to Salmonella Typhimurium. The source of the infection could not be traced although exotic ducks were kept on the premises their eggs were not consumed nor were any Salmonella organisms found in faecal samples from a number of the ducks. Five of the eight dysentery cases notified were in children attending a private school in Eversley.

<u>NOTIFICATIONS</u>	<u>1966</u>	<u>1965</u>	<u>1964</u>
T.B. Pulmonary.....	6	1	5
T.B. Non-Pulmonary.....	1	-	1
Dysentery.....	8	2	8
Food Poisoning.....	1	8	1
Scarlet Fever.....	5	19	5
Erysipelas.....	-	2	-
Pneumonia.....	-	1	2
Puerperal Pyrexia.....	-	-	2
Whooping Cough.....	-	3	5
Meningococcal Infection.....	-	1	-
Poliomyelitis (Corrected).....	-	-	-
Poliomyelitis (Paralytic).....	-	-	-
Poliomyelitis (Non-Paralytic)....	-	-	-
Measles.....	80	493	59
Malaria.....	-	-	-
	<u>101</u>	<u>530</u>	<u>88</u>

Tuberculosis

Six new cases of pulmonary tuberculosis were notified during the year as compared with one in 1965 and five in 1964.

B.C.G. vaccination of 13 year old school children giving protection against tuberculosis was offered to children attending private schools as well as to those attending the county schools.

The work done during 1966 is summarised in the following table :-

- (a) number of children offered vaccination - 564
- (b) number of children accepting
vaccination and tuberculin tested - 405 - 70% of (a)
- (c) number of children tuberculin
positive - 37 - 9% of (b)
- (d) number of children vaccinated - 329 - 58% of (a)

IMMUNISATION AND VACCINATION PROCEDURES

General

The immunisation of children against diphtheria, whooping cough and tetanus and of their vaccination against poliomyelitis and smallpox continued to be a major concern of the Health Department.

Diphtheria Immunisation

The continued need for immunisation against diphtheria was highlighted in July by a press report of the death from diphtheria of two brothers aged six and nine in Derbyshire and that four other members of the family were suffering from the disease.

It needs to be remembered that the absence of serious infectious diseases should not be allowed to lull us into an attitude of complacency and there is still need to raise the rates of immunisation as near to 100 per cent as possible. Re-inforcement of immunity is essential in most of these diseases. No changes in the routine immunisation procedures were recommended by the Ministry of Health during the year.

The following antigens are kept in stock :-

- (1) Triple antigen for primary immunisation against diphtheria, whooping cough and tetanus.
- (2) Alum precipitated diphtheria toxoid for primary or reinforcing doses.
- (3) Combined Diphtheria/Tetanus alum precipitated toxoid for immunising children to whom the administration of whooping cough vaccine is considered unnecessary or undesirable.

The following table shows the number immunised during the year :-

Number of Children who completed a course of primary immunisations and who received re-inforcing injections								
Year of Birth	Diphtheria Only		Triple Antigen		Diphtheria and Tetanus		Quadrulin	
	P	B	P	B	P	B	P	B
1966.....	-	-	298	5	1	-	-	-
1965.....	-	-	387	32	1	-	-	-
1964.....	-	-	12	74	-	1	-	-
1963.....	-	-	2	19	-	-	-	-
1962 - 1959..	-	71	14	206	2	76	-	-
Under 16.....	-	132	6	36	-	38	-	-
TOTALS.....	-	203	719	372	4	115	-	-

P = Primary

B = Booster

Vaccination against Smallpox

The number of primary vaccinations in the first two years of life were much the same as in the previous year. As advised by the Ministry of Health children are now vaccinated during their second year rather than at the age of four to five months.

The following table gives details of the age groups vaccinated during the year :-

Age at which vaccinated	Primary	Re-vaccination
Under one year....	60	-
One year.....	420	-
2 - 4.....	102	10
5 - 15.....	29	52
TOTALS.....	611	62

Poliomyelitis Vaccination

In May the Joint Committee on Vaccination and Immunisation asked Medical Officers of Health to make every effort to ensure that acceptance rates for poliomyelitis vaccination be maintained at a satisfactory level, particularly among children of pre-school age. They also recommended that all immunised children at school entry be offered a re-inforcing dose of vaccine and this was done at the beginning of the winter term at the same time as a re-inforcing dose of diphtheria vaccine was given.

There has been no demand for a considerable time now for any Salk (inactivated) vaccine.

The following table shows the number of persons vaccinated during 1966 :-

AGE GROUP	SALK VACCINE	ORAL VACCINE
1966.....	-	264
1965.....	-	502
1964.....	-	51
1963.....	-	24
1962 - 1959.....	-	364
Under 16.....	-	159
TOTALS.....	-	1,364

GENERAL HEALTH SERVICES IN THE AREA

Home Help Service

Figures for Hartley Wintney district are no longer available but the number of cases dealt with in the Fleet and Hartley Wintney districts during the year ended 31st December, 1966, are as follows :-

Maternity.....	46
Emergency Sickness.....	22
Post Hospital.....	17
Child Care.....	3
Mentally Disordered.....	1
Chronic Sickness.....	16
Aged Sick and Infirm (65 years and over).....	164
Special.....	2
	<hr/>
	271
	<hr/>

The Home Help Organiser is Mrs. P. M. Roberts, 107 Fleet Road, Fleet, (Telephone 1513)

National Assistance Acts, 1948 and 1951 - Section 47

No action was called for under this section.

Infectious Diseases

The nearest Infectious Diseases Hospital is the Northfields Isolation Hospital, Redan Road, Aldershot, (Telephone Aldershot 21365), to which cases of Infectious Diseases are sent.

Ambulance Service.

Hartley Wintney is a sub-station with one ambulance controlled from the main station at Laburnum Road, Aldershot. Enquiries should be made to the Area Superintendent, (Telephone Aldershot 22244) between 8.00 a.m. - 6.00 p.m. Monday to Friday, 8.00 a.m. to 12.00 noon Saturday. At other times it is necessary to telephone the Central Control in Winchester (Telephone Winchester 61644)

Professional Nursing in the Home and Domiciliary Midwifery

<u>District Served</u>	<u>Name and Address of Nurse</u>
Attached to Drs. Singer and France - mainly in Yateley itself.	Mrs. K. A. Carroll, 20 Farm View, Yateley, Near Camberley, Surrey. <u>Tel: Yateley 2258</u>
Covers Parkhill, Frogmore, East Green Estates; Darby Green and remainder of unattached work in Yateley.	Mrs. M. P. Devereux, 137 College Road, College Town, Camberley, Surrey. <u>Tel: Camberley 23833</u>
Hartley Wintney, Elvetham, Winchfield.	Miss M. Linfield, Becketts Cottage, Hartley Wintney, Hants. <u>Tel: Hartley Wintney 2134</u>

<u>District Served (continued)</u>	<u>Name and Address of Nurse</u>
Hook, Newnham, Nately Scures and Murrell Green.	Mrs. E. J. Brown, 1 Cedar Cottage, Greywell, Near Basingstoke, Hants. <u>Tel: Odiham 3272</u>
All unattached work on Hawley side of A 30 and all Kingsway Estate. Also covers Eversley.	Mrs. C. H. Christie, Rosina Cottage, Crowthorne Road, Crowthorne, Berks. <u>Tel: Crowthorne 2086</u>
Crondall - Attached to Group Practice of Drs. Tilly, Robinson, Winchurch and Newell Price of Fleet.	Miss D. L. Heath, The Priory, Odiham, Hants. <u>Tel: Odiham 3297</u>
Odiham, Greywell, North Warnborough.	Miss M. A. Neal, No. 1 Nurses' Flats, Queens Road, North Warnborough, Near Basingstoke, Hants. <u>(Tel: Odiham 29)</u>
Heckfield, Mattingley, Bramshill, Riseley, Rotherwick, Hazeley Heath, Hazeley Bottom, West Green, Dipley.	Miss D. H. Hardingham, 1 Hound Green Close, Mattingley, Near Basingstoke, Hants. <u>Tel: Heckfield 354</u>
South Warnborough, Long Sutton.	
<u>Health Visitors for the District</u>	
Eversley, Frogmore, Yateley, Blackwater.	Mrs. R. Stockdale, "Seba", 15 Hammersmoor Way, Mytchett, Camberley, Surrey. <u>Tel: Farnborough 45556</u>

Fleet - South of Canal (except Courtmoor Estate) Church Crookham.	Mrs. Z. E. M. Collyer, 61 Ferndale Road, Church Crookham, Near Aldershot, Hants. <u>(Tel: Fleet 2655)</u>
Yateley, attached to Drs. Singer and France; also unattached work in part of Blackwater.	Mrs. P. McKinney, "Chiltern", Vigo Lane, Yateley, Near Camberley, Surrey. <u>Tel: Yateley 2103</u>
Heckfield, Mattingley, Bramshill, Riseley, Rotherwick, Hazeley Heath, Hazeley Bottom, West Green, Dipley.	Miss D. H. Hardingham, 1 Hound Green Close, Mattingley, Near Basingstoke, Hants. <u>Tel: Heckfield 354</u>
South Warnborough and Long Sutton.	
Hawley.	Miss M. E. Langford, Harleston, The Flats, Blackwater, Near Camberley, Surrey.

Hospital Services

There are three hospitals in the district.

- (1) Odiham Cottage Hospital (Winchester Group)
(8 beds and 1 cot including 1 private ward)
- (2) Yateley and District Hospital (Farnham Group)
(14 beds and 1 private ward)
- (3) Winchfield Hospital (Farnham Group)
(This is a hospital of 166 beds, mostly for chronic sick patients)

Chest Clinics

- (1) Northfields Hospital, Redan Road, Aldershot

Monday

9.15 a.m. - Old Patients.

11.00 a.m. - New Patients.

2nd Monday every month

- Special Bronchitis Clinic)

One Monday every month

- B.C.G. Session

One Monday every month

- Post B.C.G. Session

p.m.

Tuesday

1.30 p.m. - 3.00 p.m.

- Old and New Contacts.

Old Patients.

Urgent New Patients.

Wednesday

1st, 3rd and 5th Wednesday- Old and New Patients.
every month at Fleet
Hospital.

Thursday

9.15 a.m.

- Old Patients and Urgent New Patients.

- (2) Basingstoke General Hospital, Hackwood Road, Basingstoke.

Tuesday

10.00 a.m.

- All patients.

Friday

10.00 a.m.

- Old patients.

2.00 p.m.

- New patients.

Special Clinics

- (1) Aldershot General Hospital, St. George's Road, Aldershot.

Males - Wednesday 5.00 p.m. - 7.00 p.m.

Females -- Monday 10.00 a.m. -12.30 p.m.

Monday 10.00 a.m. - 12.00 p.m.
Wednesday 2.00 p.m. - 4.00 p.m.

- (2) Royal Hampshire County Hospital, Winchester
Out Patient Annexe

Females - Monday 2.00 p.m. - 4.00 p.m.

Males - Saturday 10.30 a.m. -12.00 noon.

Speech Clinics

School Speech Clinics are held at Aldershot and Basingstoke.

Aldershot

The School Clinic, - Mondays, Tuesdays and
St. George's Road East. Wednesdays. Fridays p.m.

Basingstoke

Brambly's Grange Health - Mondays, Tuesdays and
Clinic. Thursdays.

Eye Clinics

These are a Regional Hospital Board responsibility administered through the County Council. They are held at the Aldershot General Hospital and Brambly's Grange Health Clinic, Basingstoke, by appointment.

Laboratory Service

The service for this area is normally the Public Health Laboratory, Royal Hants County Hospital, Winchester, (Telephone Winchester 3807). Dr. M. H. Hughes is the Director. All types of bacteriological examinations are done. Chemical analysis of water is carried out by the Public Analyst at Reading.

Child Welfare Centres

Day held (2.00 p.m.)

Church Crookham.	Elizabeth War Memorial Hall, Sandy Lane.	Every Monday. (A.C.M.O.) Every Friday - 9.30 a.m. to 11.30 a.m. only (1st and 3rd Fridays A.C.M.O.)
Eversley.	Village Hall.	1st Tuesday.
Ewshot.	Village Hall.	2nd Wednesday.
Frogmore.	Darby Green and Frogmore Social Hall, Frogmore Road, Blackwater.	Every Wednesday. (1st, 3rd, 4th and 5th A.C.M.O.)
Hartley Wintney.	Edward Hall.	1st and 3rd Thursdays.
Hawley.	Memorial Hall.	2nd and 4th Wednesdays. (A.C.M.O. each session)
Hook.	Elizabeth Hall.	1st Tuesday. 2nd and 4th Thursdays.
Odiham.	(1) The Church Centre, High Street. (2) Family Services Bldg, R.A.F.	2nd Friday (2.30-3.30) 4th Friday. 1st and 3rd Mondays. (A.C.M.O. each session)
Yateley.	(1) W.I. Hut, Reading Road. (2) The Surgery.	Every Thursday. (A.C.M.O. 2nd and 4th) Every Tuesday. (Dr. Singer)

Orthopaedic Clinics

A Surgeon's Clinic administered by the Lord Mayor Treloar Hospital, Alton, is held at the School Clinic, St. George's Road East, Aldershot, as required. Remedial Clinics are held at the Aldershot General Hospital.

Surgeons and Remedial Clinics are also held at Basingstoke General Hospital, Hackwood Road, Basingstoke. Attendance at these clinics are by appointment from the respective Hospital.

Dental Treatment

All expectant and nursing mothers and pre-school children may receive a dental inspection and treatment on application. All school children are examined regularly by the County Dental Officer and treatment is carried out in the mobile dental clinics at schools in the area, attendance by appointment only.

Any cases requiring emergency treatment can also be seen at either the Dental Clinic, St. George's Road East, Aldershot, (Telephone Aldershot 24104) or Bramblys Grange, Health Clinic, Basingstoke, (Telephone Basingstoke 21877) or the Dental Clinic attached to the Courtmoor Secondary School, (Telephone Fleet 3).

Child Guidance

Clinics are held by appointment only at :-

- (1) Manor House Health Clinic, - Every Friday and alternate
Manor Park, Aldershot. Mondays all day.
- (2) Brambly's Grange Health - Every Tuesday all day and
Clinic, Basingstoke. alternate Monday afternoons.

Family Planning Association

Clinics are held at Manor Park, Aldershot, on every Friday from 2.00 p.m. - 4.00 p.m.; at Brambly's Grange Health Centre, Basingstoke, every Friday at 1.30 p.m. - 3.30 p.m. and 2nd and 4th Fridays from 5.30 p.m. - 6.30 p.m.

The climate of the district is indicated by the following figures :-

Month	Rainfall mm	Total Sunshine Hours	Average afternoon humidity %
January.....	35.5	37.9	83

HARTLEY WINTNEY
RURAL DISTRICT COUNCIL

ANNUAL REPORT

OF THE

CHIEF PUBLIC HEALTH INSPECTOR

FOR 1966

(GENERAL AND WET SCAVENGING SERVICES)
(to 31ST MARCH, 1967)

Public Health Department,
Council Offices,
Hartley Wintney,
Hants.

D. J. DAVIES, M.A.P.H.I.,
CHIEF PUBLIC HEALTH INSPECTOR

Mr. Chairman, Ladies and Gentlemen,

It is with pleasure that I submit my annual report for 1966; the refuse collection and wet scavenging services include statistics to 31st March, 1967.

The general work of environmental hygiene has been maintained including 100 per cent meat inspection of all animals dealt with at the slaughterhouse. It was also possible to take action with regard to a greater number of unfit houses than in previous years because of the new Council estate at North Warnborough. Although there were no major Acts of Parliament during the year three important Regulations came into force and these were :-

- (a) Meat Inspection (Amendment) Regulations, 1966.
- (b) Slaughterhouses (Hygiene) (Amendment) Regulations, 1966.
- (c) Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1966.

The first of these Regulations empowers local authorities to fix the times of slaughtering (after consultation with the occupiers of slaughterhouses) and the second is intended to eliminate the use of wiping cloths after 1st November, 1968. The Regulation dealing with delivery vehicles is designed to improve the cleanliness and protection of food on mobile vehicles and in market places.

The major difficulty in regard to the general and wet scavenging services has been the recruitment and retention of labour. A total of eight new employees were taken on to replace retirements and resignations which is equal to 25 per cent of the total staff. Without the hardcore of regular drivers and loaders, these services would be almost impossible to maintain on a weekly basis. The year was also marred by the collision of two refuse vehicles which resulted in extensive damage and necessitated the freighters being under repair for several months. The weekly refuse collection was extended to a number of properties previously on a fortnightly service and there are now only 55 properties which are not visited each week.

Finally I should like to express my sincere gratitude to all members of the department for the able and willing way that the work has been carried out during the year. At all times they have dealt courteously and helpfully with the public particularly on housing letting matters.

I am Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

D. J. DAVIES

CHIEF PUBLIC HEALTH INSPECTOR

July, 1967.

HOUSING

The duties of the Council in dealing with unfit houses under the Housing Act, 1957, have been carried out when necessary. All the premises were dealt with on an individual basis there being no large areas of unfit properties capable of being made into clearance areas. Because of the increase in new Council houses available for letting during the year rather more properties than average were the subject of statutory action. In all some 25 cottages were either closed, demolished or restored as follows :-

Properties Demolished

Nos. 19 and 20 Elvetham Lane, Hartley Wintney.
Nos. 3 and 4 Moor Hill, Hartley Wintney.
Nos. 11 and 12 Rotten Green, Elvetham.
Nos. 9 and 10 The Lake, Hartley Wintney.
Nos. 1 and 2 Garden Cottages, Vicarage Road, Blackwater.
Cottage, rear of Hook Common Post Office, Hook.
Cottage, Swan Hill, North Warnborough, Odiham.
Neville's Cottage, North Warnborough, Odiham.
Thatched Cottage, Mill Corner, North Warnborough.

Properties Restored

Chapel Cottage, The Borough, Crondall.
Church Cottage, The Street, Rotherwick.

Written Undertakings

Nos. 1 and 2 The Ridings, Heath Lane, Ewshot.
Greywell Mill, Greywell.
No. 5 Diple Common, Hartley Wintney.
Hill Cottage, Heckfield.
No. 31 Odiham Road, Heckfield.
Turnpike Cottage, Heckfield.
Cottage, Rye Common, Odiham.
No. 2 Valley Cottage, Potbridge, Winchfield.

In addition ten premises were found during inspections to be unfit for human habitation and at the end of the year there were 32 premises left to be dealt with in this category. From the table overleaf it will be seen that 265 premises have been the subject of action since August, 1955.

Improvement Areas

A preliminary survey in the sewered area of Hartley Wintney involving 467 properties was carried out to ascertain the number of sub-standard houses in the area. Of these properties 142 were tenanted and 104 were lacking in one or more facilities as follows :-

(a) Fixed bath.....	86
(b) Wash hand basin.....	90
(c) Hot and cold water to bath.....	87
" " " " to wash hand basin	92
" " " " to sink.....	67
(d) Water closet.....	Nil
(e) Food store.....	66

Further investigations are being made during the current year.

SCHEDULE OF UNFIT HOUSES AT 31ST DECEMBER, 1966

PARISH	Properties in Ministry Return AUGUST, 1955.	Down- graded 1955-66.	TOTAL	Demo- lished	Restored	Converted to other use.	Action Taken. (void)	Action Taken. (occupied)	To be dealt with.	TOTAL

Council Housing - Letting

The Public Health Department is responsible through the Allocation Sub-Committee for the letting of Council houses and the following statistics are supplied for information :-

Number of new applications accepted..... 155
Applications refused..... 26

The housing list at 31st December, 1966, was as follows :-

Flats.....	33
Nil/one child.....	219
2 or more children.....	89
Easter Ross.....	43
	<hr/>
	384
	<hr/>

This total shows a decrease on the previous year of eight due to re-housing in the following vacancies arising from new and existing Council properties :-

Crondall (4 new).....	13
Crookham.....	1
Hartley Wintney.....	5
Hook.....	10
Mattingley.....	1
Odiham (38 new dwellings North Warnborough)	47
South Warnborough.....	1
Yateley.....	7
	<hr/>
	85
	<hr/>

Rent Act, 1957

One application for the cancellation of a certificate of disrepair was received and granted during the year.

Nuisances.

The complaints received by the department under the broad heading of public health are many and varied. They range from general housing defects such as leaking roofs, dampness, to noise nuisances and drainage defects. The investigation of these problems can be lengthy and call for tact and understanding. Fortunately all complaints were dealt with on an informal basis and no legal action was required during the year to abate any nuisances.

Drainage

No special reports were submitted to the Council during the year on drainage arrangements in the district. The sewerage of Eversley Centre and Eversley Cross is proceeding and the decision has been taken to provide Rotherwick with main drainage. The operation of the Council's wet scavenging service has kept the nuisances likely to arise from overflowing cesspools to a minimum.

WATER SUPPLIES

I am indebted to the Chief Engineer of the Mid-Wessex Water Company for the following report regarding the main supply of water to the district :-

"Water was supplied to the whole rural district by the Mid-Wessex Water Company from wells in the chalk at their works at Greywell, Itchel and Lasham.

"The supply was continuously laid on under pressure and was satisfactory as to quantity and quality. The water was softened at the sources before distribution so as to comply with the statutory limitation of hardness of 12° Clark and chlorination is applied at all sources.

"Chemical and bacteriological examinations of the raw and treated waters were regularly and frequently made by the Company's resident chemists and bacteriologists in their laboratory and independent examinations were also made by an independent laboratory. All samples were satisfactory.

"The waters do not have any plumbo-solvent action.

"No reliable information is available for this particular area of the population supplied, but the number of connections was approximately as follows :-

<u>Parish</u>	<u>1966</u>
Bramshill.....	33
Crookham } Crondall }	895
Dogmersfield.....	126
Eversley.....	437
Greywell.....	119
Hartley Wintney (Elvetham Ward).....	32
Hartley Wintney.....	1,223
Hawley.....	2,138
Heckfield.....	51
Hook.....	857
Long Sutton.....	110
Mattingley.....	131
Odiham.....	1,018
Rotherwick.....	209
South Warnborough.....	111
Winchfield.....	130
Yateley.....	3,116

"No information is available as to the number of houses supplied by standpipes".

Independent Water Supplies

A few properties in isolated positions still depend upon well water for domestic purposes. These are sampled on request or if the purity becomes suspect. If the samples are unsatisfactory the owner is advised as to the best method of dealing with the pollution. All the samples in the parish of Heckfield are taken from a private estate supply. The high number of unsatisfactory samples was due to a breakdown in the chlorination plant.

Samples

<u>Parish</u>	<u>Independent</u>	<u>Mains</u>	<u>Satisfactory</u>	<u>Unsatisfactory</u>

Hartley Wintney...	2	1	1	2
Crookham.....	1	-	1	-
	<u>15</u>	<u>1</u>	<u>6</u>	<u>10</u>

CARAVAN SITES

The total number of caravan sites used for permanent residential purposes remained at eight for the year. There was an increase of 12 hardstandings involving two of the sites and this brought the number of caravans up to 333. Five of the sites are connected to the public sewers and one site was provided with its own sewage disposal plant during the year. All the sites have achieved a good standard and inspections are made to ensure the conditions of the licence, issued by the Council, are being complied with. These caravans serve as a useful supplement to the permanent housing of the district.

The unlicensed caravan site at Minley Road, Cove, was supervised and visited each week. When the Council took control of this site there were 142 vans on the land; at the end of 1966 there were 43.

Individual Caravans

In addition to the larger sites there were 33 single caravans licensed for living accommodation. These are mainly for specific purposes and used in connection with agriculture or horticulture. A site licence automatically expires when the planning consent ends. These caravans are also subject to standard conditions and routine visits are made.

Unauthorized use of land

The problem of unlicensed caravans using land without planning permission is mainly confined to the itinerant caravan dweller. There are some 12 to 15 families indigenous to this area who use the open commons and road-side verges for camping and during the past two years have been resorting primarily to Hazeley Heath. Active steps are being taken by the Council to establish a "holding" camp to be run in conjunction with the rehabilitation centre to try to solve this problem.

List of Licensed Caravan Sites

Oaklands Park Caravan Site, Frogmore, Yateley..... (Mr. C. L. Phillips)	104

Easter Ross, Minley Road, Cove, total vans at site at 31st December, 1966.....	<hr/> 43 <hr/>
---	----------------

FOOD PREMISES

There are 236 food premises in the district where food is prepared, stored or sold to the public. Routine visits are paid to them particularly those where food is prepared for immediate consumption. The general standard of premises in the district is a good one and most occupiers are aware that clean, well run premises satisfy a customer who has become more critical in recent years. New shops are usually attractive in lay-out, well lit and maintained to attract custom. Food premises in the district include :-

	<u>No. of Premises</u>	<u>Complying with Reg. 16</u>	<u>To which Reg. 19 Applies</u>	<u>Complying with Reg. 19</u>
Cafes and Restaurants...	23	23	23	23
Hotels and Public Houses	63	63	63	63
Off Licences.....	5	5	Nil	Nil
Butchers and Fishmongers	19	19	19	19
General Provision Stores	58	58	58	58
Greengrocers.....	11	11	4	4
Confectioners.....	19	19	Nil	Nil
Fish Friers.....	3	3	3	3
Bake Houses.....	2	2	2	2
Canteens.....	32	32	32	32
Ice Cream Manufacturers.	1	1	1	1
	<u>236</u>	<u>236</u>	<u>205</u>	<u>205</u>

Registered Premises

The Council are required to register premises where ice cream is manufactured or sold. These number 82 but only in one case is the ice cream manufactured at the premises. The remainder are supplied by the large combines who make the ice cream outside the district. Samples taken from the processing plant in this district were satisfactory.

In addition 21 premises are registered for the making of sausages or cooking of hams etc.

Unsound Food

The inspection of foodstuffs on sale to the public was undertaken. Most unfit food is brought to the notice of the inspectors by shopkeepers themselves who are keenly aware of their responsibilities. The following unsound food was voluntarily surrendered to the department :-

Fresh Meat.....	28 lbs
Fish.....	39 lbs
Corned Beef.....	6 lbs
Canned Meat.....	12 lbs
Sausages.....	7 lbs
Chicken.....	<u>14</u> lbs
	<u>106</u> lbs

Food Sampling

I am indebted to the Chief Sampling Officer of the Hampshire County Council for the following report :-

"During the year ended 31st December, 1966, 406 samples were procured under the Food and Drugs Act, 1955, within the area of the Hartley Wintney Rural District.

"Milk Samples

373 samples of milk, including 66 of "Channel Islands", were obtained. Of these :-

- (1) 28 were below the required fat content but they were from individual churns included in larger consignments and, the average fat content of the consignments being, in each case, above the required limit, no offences were involved.
- (2) One, consisting of two glasses of milk purchased from a cafe and served from a milk container in which the device for mixing the contents was not in operation, was found 32% deficient of fat. Legal proceedings resulted in the defendant company being given an absolute discharge on payment of £7. 17s. 0d. costs.
- (3) One, consisting of a pint bottle of "Channel Islands" milk submitted for analysis as a result of a consumer complaint, was found to contain vegetable tissue and mould growth. The dairy company responsible was fined £10 with £12. 4s. 6d. costs.

"Miscellaneous Samples

31 samples of articles other than milk were obtained and, of these, 29 were submitted for analysis and found to be satisfactory. Only two samples received adverse reports. One concerned pork sausage meat, which contained undeclared preservative, and the other ham mornay which, it was considered, contained insufficient meat. These matters did not call for the institution of legal proceedings but representations were made to the manufacturers concerned.

"General

In addition to the samples taken under the Food and Drugs Act, the usual attention was given to the labels and descriptions of food and drugs under the provisions of the Labelling of Food Order and the Pharmacy and Medicines Act. There were no serious complaints concerning these matters."

Milk

The local authority is responsible for registering all premises where milk is sold by retail. All pasteurised milk sold in this area is processed outside the district. The number of licensed premises in the district is 23 selling pre-packed milk. A total of nine milk samples were taken all of which complied with the methylene blue and phosphatase tests.

Meat Inspection

There is one licensed private slaughterhouse situated in Odiham. It is the duty of all local authorities to arrange for the inspection of animals slaughtered in their area for human consumption. This has been carried out and the following table shows the number and type of animals dealt with and the incidence of disease. There has been a further reduction of nearly 23 per cent of the throughput at the slaughterhouse.

	<u>Beasts</u>	<u>Calves</u>	<u>Sheep</u>	<u>Pigs</u>	<u>Total</u>
Number Killed.....	449	559	1,273	1,262	3,543
Number Inspected.....	449	559	1,273	1,262	3,543

Whole Carcase.....	-	-	-	-	-
Part or Organ.....	1	-	-	-	1

Incidence of disease in cattle excluding lungs and intestines and other organs not used for human consumption..... 20. 9%

Tuberculosis Rate..... 1.33%

Overall Disease Rate..... 16.00%

Poultry Processing Stations

There are no poultry slaughterhouses in the district.

Knackers Yard

The licensed premises at Hook were inspected regularly during the year and were found to be well maintained, clean and the records were kept up to date. The animals dealt with are not used for human consumption and the following statistics shows the throughput :-

Horses.....	42
Cattle.....	583
Calves.....	237
Pigs.....	36
Sheep.....	38
Goats.....	2
	<hr/>
	938
	<hr/>

FACTORIES

The Council is responsible for enforcing standards of sanitary accommodation in factories where mechanical power is used and for certain other matters in non-powered factories. Visits were made during the year but no contraventions were found. There are no registered outworkers in the district.

The following factories are in the district :-

(a) With mechanical power.....	88
(b) Non-powered factories.....	4
	—
	92
	==

Offices and Shops

Occupiers of premises used for these purposes must register with the local authority if persons are employed for more than 21 hours a week. The following statistics are taken from the Council's annual return to the Ministry :-

	<u>No. of registered premises</u>	<u>No. of persons employed</u>
Offices.....	44	182
Retail Shops.....	139	447
Wholesale shops, warehouses.....	3	21
Catering establishments open to the public, canteens.....	34	157
Fuel storage depots.....	2	5
	—	—
	222	812
	==	==

RODENT CONTROL

During the year a total of 470 treatments were carried out for the destruction of rats and mice in the district. This includes 58 agricultural holdings and the remainder were either dwelling houses, local authority or business premises. The rodent control service is free to all domestic properties, the others being charged on a time and labour basis.

Contracts

The system of contracts, mainly with farmers and large establishments, was continued. Regular inspections are carried out each month and treatment is undertaken when necessary. An annual payment is made to the Council for this service by the owners and this amounted to £570 in 1965. The number of properties covered by the contract system was 68.

The rodent operator also dealt with 51 wasp nests.

REFUSE COLLECTION SERVICE

A regular weekly service of house refuse collection has been maintained throughout the district during the year. Alternative collections for Bank Holidays have been provided and all occupiers of premises are notified each time by placing a leaflet on the dustbin. The provision of a collection service for bulky items is being used more and more and is much appreciated by householders throughout the district, especially as there is no charge.

It was necessary to submit a special report on the refuse collection service to the Council in September to explain how the demands on the service had grown and to indicate how this would be met in the future. During the past six years refuse has increased by 44 per cent, vehicle capacity by 53 per cent and the labour force by 25 per cent. As a result of this it was decided to increase the number of routes to six and provide for an additional three men to allow for future development and special collections. At the same time a comprehensive review was undertaken to re-assess the work load on each route and these were re-adjusted in May. Provision was also made to provide a more frequent service to a further 135 properties so that there are now only 55 premises throughout the whole district which do not receive a weekly service.

Refuse

The amount of refuse collected during the year was 61,085 cubic yards. This is an extra 23 per cent over the previous year due to the development of the district, increased commitments at Queen Elizabeth Barracks and special collections. The Working Party Report on Refuse Collection published this year considers that domestic refuse will continue to increase over the next 10 to 15 years reaching 4 or 5 cubic feet per household of which 50 per cent by weight will be paper and packaging material.

Labour

In previous years I have been able to inform the Council that there have been no major difficulties in recruiting and retaining labour. Due to retirements three vacancies arose and it was sometime before these could be filled with the right type of man. There was, in fact, a turnover of six staff equivalent to 25 per cent of the total employed on this service. It would appear that in the future it will become harder to obtain workmen unless extra incentives will attract men from other work. A current advertisement for two weeks has resulted in one student being employed on a temporary basis. The nucleus of regular employees is gradually ageing and sickness is becoming more prevalent. The present age groups are :-

11 men over 60

6 men over 55

5 men over 50

One additional man was employed during the year and the total labour force was 26.

Vehicles

The Council own seven refuse vehicles, of which three are modern continuous loading machines. Five vehicles were on regular routes, one was used for special collections and one remained as a reserve vehicle. In July, 1966, two fore and aft freighters collided in the lane leading to the depot. Fortunately personal injury to the crews was of a minor nature but the lorries were extensively damaged. The two vehicles in reserve had to be brought into daily use and for three months there was no spare vehicle to use in the event of breakdowns. One vehicle was returned after repair by the manufacturers in October, 1966, and the other in February, 1967. A further route has been planned for the current year and a new 35 cubic yard Pakamatic is on order.

Disposal

All refuse collected was disposed of at Hazeley Heath where a disused gravel pit is being in-filled. A great deal of interference was again experienced from caravan dwellers camped on the heath who sort and disturb the tip both during and after working hours. During this current year steps have been taken to remove these families from Hazeley Heath and interference has now practically ceased. Unfortunately there is no way to prevent tipping on the site by unauthorised persons out of normal working time and this is one of the greatest difficulties. All persons within the rural district are given free disposal facilities if the office is contacted.

The tipping of crude refuse becomes increasingly hard to control owing to the higher proportion of paper and packages in the refuse. Although no money has been spent in the past on access roads to the tip face it is evident that with the type of refuse received some thought will have to be given to this problem in the future. The tip was controlled by one bulldozer and driver and one part-time employee during the year.

Salvage

The salvage scheme covering waste paper, rags and metals continued to operate and total sales amounted to £5,889.16s. 7d. This is £500 less than last year's figure due mainly to a reduction in baling output because of other commitments. The bonus paid to the men was £1. 1s. 1d. a week each or £1,472. 6s. 8d. for the year. The total labour costs including overtime baling were £3,830. 17s. 9d. which leaves approximately £2,059 for administration and maintenance.

Litter

There are now just over 100 litter baskets throughout the district. These are emptied by the refuse collectors on their normal daily routes. In addition paper sacks are supplied to the lay-bys on the A 30 and removed twice a week during the summer. Street sweeping is also carried out in Odiham and Hartley Wintney High Streets to keep the litter nuisance to a minimum. The County Council undertake the sweeping of certain sections of roads in Crondall, Hook, Blackwater and Yateley each week as well as providing mechanical sweepers for the remainder of the district.

WET SCAVENGING

Cesspools

The commitment for this service continued to grow and a further 216 loads were dealt with over the previous year. There are approximately 1,610 cesspools in the district of which 147 are within the sewered areas. Seventy cesspools were emptied during the year for the first time as compared with 64 in the year before. New cesspools must now be of at least 4,000 gallons capacity. During the past five years there has been a 63 per cent increase of work.

Disposal

The disposal of cesspool contents continues to give rise to difficulties and will not be resolved until the special provisions allowed for in the Hartley Wintney sewage disposal scheme are available. In July, 1966, it was necessary to stop the tankers discharging at pumping stations in Yateley and this now means that all disposal is at the western end of the district. This requires long hauls and consequent increased cost due to loss of time.

Buckets

The Council provide a service to certain properties in the district with bucket closets. These are usually in the more scattered and rural areas and although the number is reducing the cost per emptying is rising. In December 111 properties received this free service, a reduction of 24 on the previous year.
